December 2020

# Mexican EPA vs. United States EPA

- Comparisons between the United States Environmental Protection Agency (EPA) and the Mexican EPA (SEMARNAT) have surfaced on numerous occasions. It is understood that Mexico's Regulations are much more flexible than those Regulations in America.
- If Working with the USA EPA costs around \$1,000,000 USD, in Mexico could amount to \$250,000 USD. The Cost Ratio is of 1 MX to 4 USA.
- For this reason mainly there's around 250 Canadian Mining Public Companies doing business in Mexico.

# Development Strategy

- › Strategic Strengths where TAMINO MINERALS *Au* adds value to a property:
- › Experienced management
- › Sophisticated financing expertise
- › Technology and equipment selection for operations
- › Qualified Consulting Firms support our efforts
- › Satisfactory Community and governmental relations

# Recent Consolidation in Mexico

- › Coeur Mining Acquires Orko Silver Corp. (2013 – C\$100M)
- › Pan American Silver acquires Minefinders Corp. (2012 – C\$1,500M)
- › Agnico-Eagle acquires Grayd Resources (2011 – C\$275M)
- › Gammon Gold (now Aurico Gold) acquires Capital Gold (2011 – C\$374M)
- › Argonaut Gold acquires Pediment Gold (2011 – C\$137M)
- › Argonaut Gold acquires Castle Gold (2010 – C\$110M)

# Strategic Area for Gold Project Development

- › In this important Area of Exploration following this mineralized trend (the Mohave-Shear) we have the following companies:

- › Riverside Resources (TSX:RRI) Mkt Cap \$20 M USD

TAJITOS GOLD PROJECT 250 Square Km in claims

- › Timmins Gold (TSX:TMM NYSE:TGD) Mkt Cap \$380 M USD

VARIOUS PROJECTS IN THE AREA 100 Square Km in Claims

- › Aurico Gold (TSX:AUQ NYSE:AUQ) Mkt Cap \$1.3 B USD

El Chanate (2 M Ounces Gold)

# Strategic Area for Gold Project Development

- › In this important Area of Exploration following this mineralized trend (the Mohave-Shear) we have also the following companies:

- › PEÑOLES-FRESNILLO PLC    SYM:PE&OLES\*:MM

NEWMONT NYSE:NEM Mkt Cap\$16 B

- › La Herradura (56% Peñoles-44% Newmont) 8 M Ozs. Au
- › Noche Buena (56% Peñoles-44% Newmont) 1 M Ozs. Au
- › Soledad-Dipolos (56% Peñoles-44% Newmont) 1 M Ozs. Au
- › Dynamic Leaching (56% Peñoles-44% Newmont) 600k Ozs

# Strategic Area for Gold Project Development

- › In this important Area of Exploration following this mineralized trend (the Mohave-Shear) we have the following companies:

- › Agnico Eagle Mines (TSX:AEM) Mkt Cap \$5.25 B USD
- › At the grassroots level, we began drilling at the Pitaya project in Sonora, where we can earn a 75% interest from Colibri Resource by spending \$3 million over three years and by completing a feasibility study within five years.
- › AEM also holds another project close the La Herradura Mine. We are currently gathering information on this project.

# El Volcan Project

## PROJECT DESCRIPTION

Au, Ag

El Volcan is located in a Metallogenic province with numerous but seemingly isolated areas of historic mining dominated by Au, Ag, Pb, Zn and Cu almost exclusively expressed surficially as veins of varying width and lengths.

The type of rock is Metamorphic of the Paleozoic quartzites, siltstone and limestones crop out within the project area. The massive quartzites tend to form the more extensive outcrops.

# El Volcan Project

## PROJECT DESCRIPTION

Au, Ag

Tertiary rhyolite, described as a quartz porphyry in the Cascabel map, crop out in the central part of the area. These rhyolite outcrops may represent two to four rhyolite domes. Intrusion (or extrusion) of these rhyolite masses could be responsible for many of the low angle faults in the area and may have played a role in mineralization.

# El Volcan Project

## PROJECT DESCRIPTION

Au, Ag

Quaternary rocks are generally limited to alluvial deposits in the dry washes and locally cover some areas on ridge slopes and tops. These quaternary deposits cover a relatively large aerial portion of the adjacent areas especially in the lower, flat lying areas.

# EL VOLCAN

# Project

## PROJECT DESCRIPTION

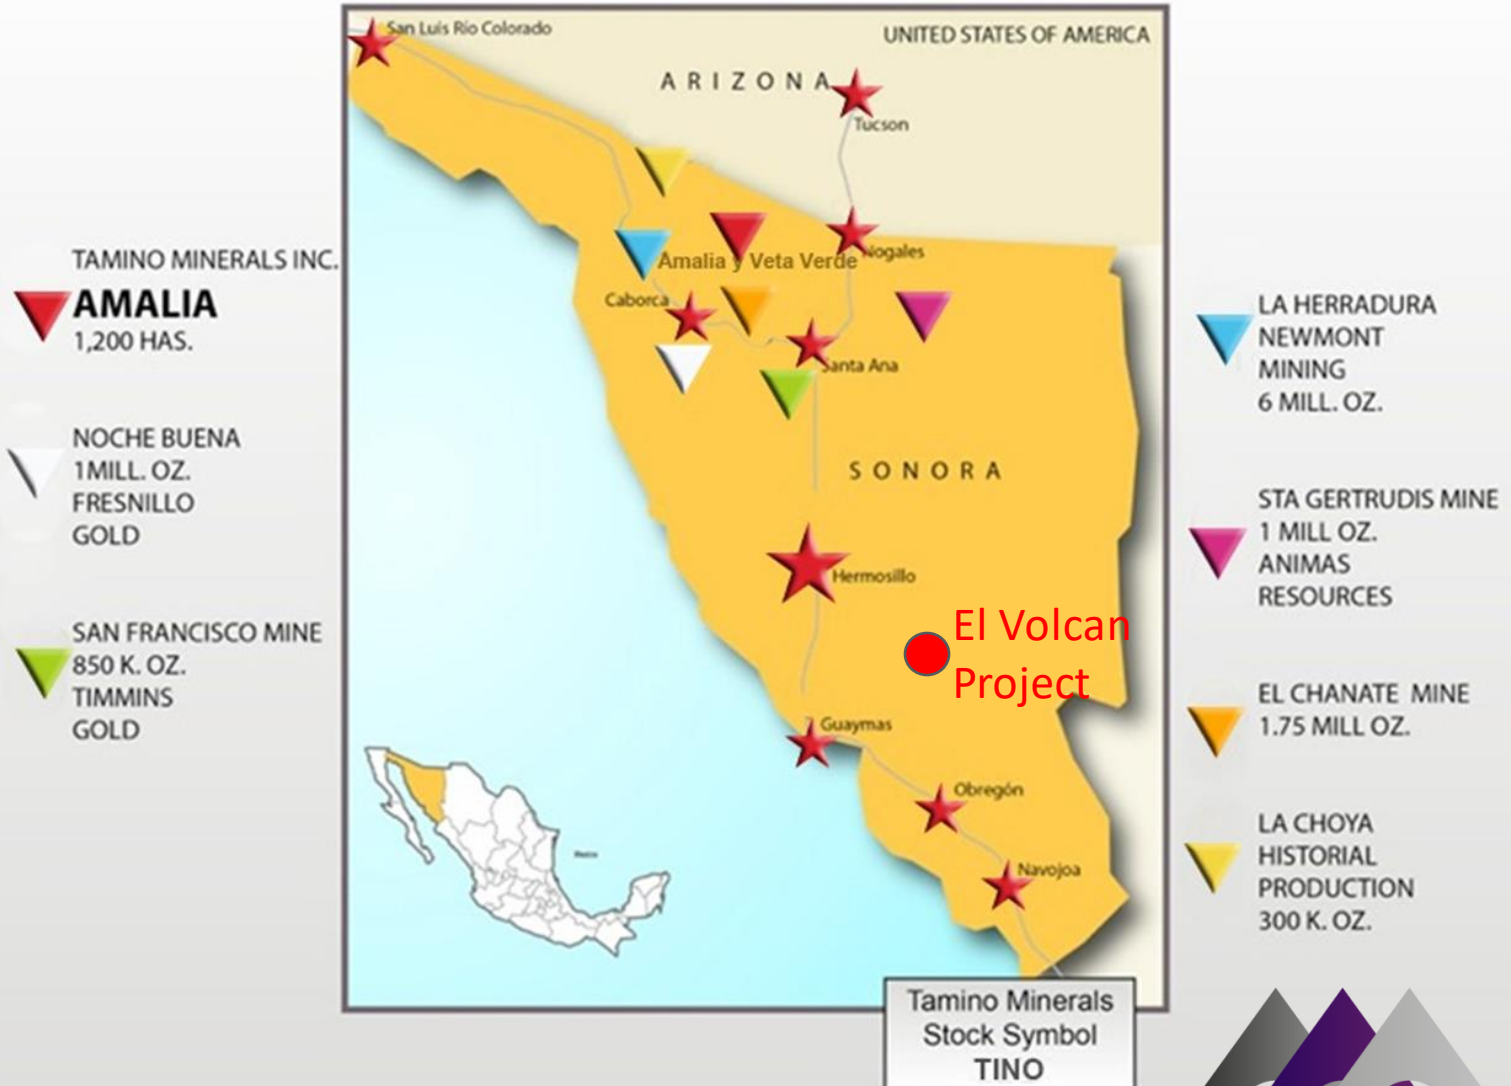

Au, Ag

Geologic Exploration Budget

	<b>Cost</b>
<b>Concept</b>	<b>USD</b>
Preparation & Mapping/Rock Sampling	\$ 175,000.00
Soil Sampling	\$ 156,000.00
Design & Permitting	\$ 47,000.00
Geophysics	\$ 150,000.00
Trenching	\$ 70,000.00
Target Drill Testing	\$ 585,000.00
Contingency	\$ 17,000.00
<b>Total</b>	<b>\$ 1,200,000.00</b>

# El Volcan Project Gold Project

## LOCATION MAP

# Objective

- › To build and operate **world-class** gold projects and develop a **robust** portfolio of gold properties within the Republic of Mexico focusing on early stage acquisitions and organic **growth** to become a **leading** gold project developer and mining company. “MEXICO is a tremendous investment for **GOLD** and Base Metals”

## BOARD OF DIRECTORS

➤ Pedro Villagran Garcia *MBA,*  
*President & CEO*

Involved in junior resource sector for 14 years. Founder of Sierra Madre Gold Corporation, former director for Farallon Resources Ltd. Very strong relationships within the Mexican Federal Government. Mr. Villagran Garcia has a good track record with exploration projects and a producing mine in Mexico and has been recognized for his capital raising abilities. Mr. Villagran Garcia holds a MBA from Insituto Tecnologico de Estudios Superiores de Monterrey (ITESM), Mexico's #1 business school.

# TAMINO MINERALS

## BOARD OF DIRECTORS

➤ Joseph Berry, *Director*

Involved in junior resource sector for 20 years. Co-Founder of Sierra Madre Gold Corporation. Director As an entrepreneur, Dr. Berry has been involved with starting up several successful businesses across Canada, USA and Mexico. He has also acted as President of Summex Exploration Inc, a privately held Nevada Company. Summex Exploration Inc was responsible for starting the evaluation and acquisition of the Campo Morado Project, Mexico. Dr. Berry also has a strong reputation as an angel investor in the mining community and started the Sierra Madre Gold de Mexico S.A. De C.V with the Monterde Project in Mexico. He currently practices as a Chiropractic Physician in Chicago, IL.

# TAMINO MINERALS

BOARD OF DIRECTORS

Minerales Tamino S.A. de C.V.

(100% wholly owned Mexican Subsidiary)

- › Pedro Villagran Garcia President
- › Sergio Mendoza Accountant with 20 years experience. Assisted in the preparation of Financial Statements.

TAMINO MINERALS  
MANAGEMENT TEAM

- › Pedro Villagran Garcia *MBA, President & CEO*

# TAMINO MINERALS MANAGEMENT TEAM

- › David Dunn *BSC Geology, Consultant*
- › Mr. Dunn is a senior geologist with over thirty five years of experience in the minerals exploration/mining industry, This experience has included work on many deposit types, primarily epithermal gold deposits, copper porphyry deposits, and volcanogenic massive sulphide deposits. He has provided Geological consulting and management services to a number of public and private mineral exploration companies such as Tres-Or Resources Ltd, Uganda Gold Mining Ltd, Golden Goliath Resources Ltd, Consolidated Silver Tusk Mines Ltd and ESM Resources Ltd. He has also acted as President & CEO and Director of Golden River Resources Inc. He currently is with Auramex Resource Corp as a Director and Geological Consultant.
- › Rick Tschauder *BSC Geology, Consultant*
- › Experienced geologist with over 30 years of mining experience, former chief geologist of Hecla mining (15 Years), found the Golden Eagle mine, helped to develop the La Choya, Golden Promise and Rosebud mines. Over 25 Publications in mining and economic geology. Based in Zacatecas with approx. 17 years experience operating in Mexico.

## Objective

- › To build and operate world-class gold projects and develop a robust portfolio of gold properties within the Republic of Mexico focusing on early stage acquisitions and organic growth to become a leading gold project developer and mining company. “MEXICO is a tremendous investment for GOLD and Base Metals”

# Share Structure and Financing

OTCPink

- › **Free Trading Shares 149,811,161**
- › **Financing of \$250,000 USD**
- › **Price Per Share Market Price**
- › **Plans to uplist in the TSX-V and OTC QB**

# Organizational Chart

**OTC**  
Markets

**President/CEO**

**OTC**Pink

# Contemplated Activity 2021

- › Preparation of Geologic Reports NI 43-101
- › Projected \$2.2 Mill. USD Budget
- › Remap and resample areas of interest
- › Target Drill Testing (core)
- › Mapping and Sampling within the primary exploration area.
- › Completion of Topographical mapping of project
- › Geophysical IP Survey is scheduled to commence
- › 2500 meter Diamond Drill Program
- › Up list into the OTC QB & TSX Venture Exchange
